Definition: Volleyball is played with no less than four and no more than six players on the court. The game is played on a designated playing area separated into two courts by a dividing net. A serve begins and both teams then contact the ball to return the ball in a manner so as to place the ball onto the opponent's court. A point is scored on each serve.

1. Scoring – All three games will be 25-point rally scoring – NO CAP. In the playoffs, the deciding game will be 25-point rally scoring – NO CAP.

2. Match Play – To begin a match, a coin toss between captains of each team (or designated person) takes place. Coin toss winner has choice of serve, defer, or in which court they wish to start. The referee will designate who will call the toss.

“A” and “B” Divisions – Each game consists of 25 points. The team must win by two points. A game can continue beyond 25 points if a 2-point advantage has not been reached (NO CAP). All three games are played and count for team standings.

Forfeited match will be scored as 25-0 if forfeited prior to start of game. If game was in progress when forfeit (default) occurred, all points scored to that point will count and additional points added to team receiving forfeit, i.e. 25-5.
