

SCUBA: *An educational and adventurous activity for the entire family*

Scuba diving is unlike any other activity you can participate in. If you've always wanted to learn how to scuba dive, experience unparalleled adventure, discover new adventures, or simply see the wondrous world beneath the waves this is where it all starts. Earn your Professional Association of Diving Instructors (PADI), the world's most recognized name in scuba training, Open Water Certification with Blue Marble Divers. Come join the hundreds of people who have discovered the wonders and excitement of learning to dive Planet Ocean with us.

What Can I Expect?

First off expect to have fun and make new friends! Our Instructors and Dive Masters create a relaxed atmosphere for your learning enjoyment.

Learning to dive involves a modest investment in time to become a safe diver. The PADI Open Water course is broken into three sections.

Knowledge Development: Here you will learn the facts, principals and concepts to become a knowledgeable and safe diver. Traditionally learning to dive involved several hours of formal classroom training. With the PADI on-line training course you can now complete your knowledge development at your own pace, in the convenience of your home or office.

Skills Development: During this portion of the course you will make a series of pool dives where you will breath underwater for the first time, (an experience you'll never forget). You will learn to use basic scuba gear including, mask, fins, snorkel, regulator, buoyancy compensation device, dive computer and tank while developing safe diving practices.

Skills Demonstration: Upon completing the knowledge and skills development portions of the course you will make four open water dives where you will demonstrate your skill proficiency. Upon completion of your open water dives you will receive the PADI Open Water Certification Card. This card identifies you as a certified diver allowing you to rent scuba equipment, participate in advanced training and explore exotic diving locations.
